Our philosophy, which we learned from nature, has always been to nurture and nourish. That's why we created our Naturally Nourishing Milk & Shea Butter Body Wash to do just that to your skin. We then put our Naturally Nourishing Milk & Honey Body Lotion to the test – it's amazing what milk and honey can do – well, they can keep for up to 24 hour moisturisation according to our clever scientists. We discovered that nature had some fun ingredients too - like the peppermint oil in our 100% natural Beeswax Lip Balm, which created a refreshing little tingle that tickles your lips.

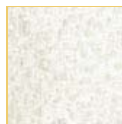

Contains:

- Beeswax Lip Balm (tube)
- Naturally Nourishing Milk and Honey Body Lotion
- Naturally Nourishing Milk and Shea Butter Body Wash
